

# KITCHENS

*Elevate your kitchen design with the use of glass, creating unique features to complement your home*

Glass introduces a light, spacious feel to kitchens, enhancing the sense of openness and brightness in the space. Glass can be used for various applications in the kitchen, such as splashbacks, countertops, cabinet doors, and shelving. Additionally, its easy-to-clean nature makes it ideal for areas prone to spills and messes, ensuring that your kitchen remains both beautiful and functional with minimal effort.

Images for illustration purposes only.

Whether its patterned glass in kitchen doors, tinted glass shelves or mirrored splashbacks\*, the options for creating a kitchen that is as unique as it is functional are endless.

Suggested glass options for kitchens:

- **PARSOL\***: a range of body-tinted float glass. Available in grey, ultra grey and bronze.
- **VISIOSUN\***: a unique glass design that features parallel lines creating a reeded glass effect.
- **Mirrors**: with unique designs and tints available our mirror ranges offer a muted reflection to complement your kitchen space.
- **Patterned Glass**: From smart and simple to textured and sophisticated, Saint-Gobain's collection of patterned glass can perfectly match any kitchen design.

\* Glass behind a heat source such as a cooker must be toughened.
